

From Rehab to Home, with Help

Coming home after a rehab stay shouldn't feel overwhelming—but it often does. Patients and families may face unexpected physical challenges, complex discharge instructions and new caregiving duties.

Our Go-Home Packages are designed to ease this transition back home. With support from professional caregivers and certified nursing assistants (CNAs), we help with post-rehab support, personal care, meal prep, transportation, and understanding discharge instructions.

Rhythms Home Care gives you the helping hands you need—right when you need them.

CAREGIVER PACKAGES
